Concetto®

The Ultimate Luxury Surface

CaesarStone's inspirational new masterpiece collection, the unique Concetto anthology, is an unmatched compilation of extraordinary surfaces handmade from individually cut and set semi-precious stones. A harmonious blend of art, nature and technology, Concetto is created by fusing nature's hues and designs with individually cut semi-precious stones to form the ultimate luxury stone surface — a dream for designers and architects alike. The Concetto Collection can be used for a variety of applications, including furniture, vanities, kitchen & bathroom surfaces, work surfaces, countertops, floors, walls, special features and more.

Inspired by Nature

A dedicated CaesarStone team constantly scours the globe in search of the highest quality semi-precious stones. This ensures a unique visual effect in every piece produced in the Concetto Collection. Some of the semi-precious stones in the Concetto Collection are breathtakingly translucent and can be backlit for added effect. With its vivid colors and awe-inspiring designs, the Concetto range brings out the inherent brilliance of the stones while enhancing the luster of their natural hues and shades.

Sturdy Splendor

Highly resistant to heat, stain and scratches, Concetto offers high quality and low maintenance. Created with dimensions of 55.5 x 119 inches and a thickness of 1 inch, each Concetto piece is made from completely natural stone that enhances its unique shadings and inherent patterns.

Rosado 8410

Like warm summer waves on cool sand, Rose Quartz creates an atmosphere of peace and affection where the wisdom of the heart can flourish. Traditionally known as the love crystal, this delicately translucent pink and white stone whispers warmth and harmony in any environment.

Puro 8141

The delicate, barely visible white patterns in this white crystal capture the essence of sunlight on northern glaciers. Radiating purity and serenity, White Quartz surfaces are the ultimate look in modern design.

Nebbia 8311

Gray Agate adds elegance to both traditional and modern designs. Its unique circular patterning of warm and cool tones gives this translucent gray and white crystal its gently sophisticated look. According to tradition, agates generate positive energy and promote progress.

Sfumato 8310

The breathtaking pattern of banded and contoured browns gives this crystal its distinctive quality. Because the energy of Brown Agate radiates from the earth that created it, this stone has traditionally been sought after for its protective powers.

Nebbia (Gray Agate), 8311*

Profondo (Blue Agate), 8531*

* These semi-precious stones are translucent and can be backlit for added effect.
